Mission Statement
We will provide engaging learning experiences so students can become effective communicators, quality contributors, and socially responsible.

Vision
We are a cohesive, diverse community providing engaging learning experiences for all.

Core Beliefs
Partnerships between students, parents, community members, and staff are foundational to educational success.
Positive school culture and a safe environment foster growth.
Everyone has inherent value and deserves to be treated with dignity and respect.
Learning is an active process requiring engaging tasks and engaging minds.
Relevant and authentic experiences ignite continuous, deeper learning.
Meaningful relationships enrich learning.
Confidence fuels risk taking and higher achievement.
Financial stewardship ensures a tomorrow for education.
Comprehensive Needs Assessment

Needs Assessment Overview

Our campus has some needs that we hope to address fully over the next three years:

- Continue to make sure that staff, students and parents feel and believe that Faubion Middle School is a safe place.
- Develop intervention, lesson planning and instructional practices that will facilitate continued strong academic performance for all students with a focus on closing the performance gaps for underperforming subpopulations.
- Train and equip teachers to implement the Engaged Learning Model (ELM) with fidelity.
- Develop and implement a structured PLC format that will yield significant improvement in instruction and student performance.
- Replace outdated technology with updated technology and train teachers on the most effective ways to utilize technology in the classroom.
- Continue to engage the community in meaningful ways that help them feel that they are a part of the Faubion Family.
Demographics

Demographics Summary

Faubion Middle School (FMS) serves a diverse population of about 1,152 students. Our most recent demographic reports highlight the strength of diversity at FMS in that we have many cultures and languages with about 31% Hispanic, 9% African American, and 54% White. In addition, 41% of our students qualify for Free or Reduced Lunch. We strive to make learning relevant with a focus on literacy strategies taught in all content areas. In all areas, teachers collaborate to provide relevant and purposeful lessons that are engaging for students. We strive to provide a safe, orderly environment where students learn and succeed both in academic and extra-curricular endeavors.

There are three special programs at FMS to serve specific populations of students:

- The Newcomer Center is for students who are new to the US or US schools and have limited english language proficiency skills. The primary focus of this unique learning environment is to assist students in acquiring an advanced level of proficiency of the english language that would allow the student to function in a manner that is similar to their peers. The ultimate goal of the program is to minimize the impact of the barriers that can cause students to struggle when they lack a proficient level of the English language.
- Active Learning (AL) is a Special Education program that aims to provide students who come to us with significant disabilities the basic functional skills that will allow them to independently or with little-to-no assistance be able to be productive in accomplishing their goals, based on their level of disability.
- Functional Academics (FAC) is a Special Education program that serves students that have a mild-to-moderate level of functioning. Our goal is to maximize the students' level of productivity and functioning that will allow them as much independence as possible, based on their disability.

An analysis of 2014-15 data reveals that most students in many subpopulation groups are improving in STAAR performance standards, especially in the area of Math, where we had 100% of students pass the math exam in every subgroup, with 69% of the students meeting the Advanced Standard. We also saw some significant gains in science among All Students, African American, White, Special Education and Economically Disadvantaged subgroups. FMS earned two Academic Achievement Distinction Designations in the areas of Reading/ELAR and Postsecondary Readiness.

Faubion Students also excelled in the Academic UIL competition by placing 1st in the District which includes all MISD middle schools and others from Allen ISD.

In the area of Fine Arts, the FMS Honors Orchestra and Symphonic I Band partnered to form a Full Orchestra. They competed from the district to state level and were awarded the distinction of Number 1 Full Orchestra in the state of Texas. They will perform at the Texas Music Educators Association conference in San Antonio in February, 2015.

In the 2014-15 school year, FMS 6th grade teachers implemented the Engaged Learning Model, also known as ELM, model in the areas of science and social studies. This year, our 7th grade Science and Social Studies teachers will implement the Engage Learning Model Using. We expect this will be a smooth transition for the students as they became familiar with the ELM model last year. We will continue to provide adequate support beyond the two-day
introductory training for our 7th grade science and social studies teachers as well as our new 6th grade teacher implementing the ELM model.

FMS teachers will work collaboratively to design engaging and relevant lessons in all content areas. Communication to parents will include weekly newsletter, social media sites of Facebook and Twitter to keep our community informed of the events and celebrations of success at FMS. Student Recognition will continue to include Lion’s Pride and Faubion Merit Scholar quarterly awards. Sheltered classes in ELAR, science and social studies will support English Language Learners. Our Newcomer Center in an innovative approach to helping our limited English proficiency and English Language Learners gain adequate proficiency of the English language. Co-teach and Inclusion models will support Special Education students. Administrators will monitor student performance data and products to ensure students are being successful.

Demographics Strengths

Faubion enjoys a naturally diverse population due to the attractiveness of a variety of available housing units in our zone. We also house a Newcomer Center that brings an additional layer linguistic diversity to our campus.

Demographics Needs

Students who qualify for Free & Reduced Lunch are the most at-risk and need specific and intentional support and interventions.

ELL are making progress in learning English but need extra support in learning content.
Student Achievement

Student Achievement Summary

Analysis of 2014-15 STAAR data reveals some strengths and opportunities for growth for Faubion Middle School. When comparing percentages vs the 2013-14 school year, the data suggests that our Math and Science programs are producing admirable results. We saw across the board improvement among all subpopulations in the Math. In Science we saw growth in nearly every subpop, with the exception of Hispanic and ELL students. This is an area of particular concerns as these populations are underperforming vs their white, African-American, American Indian and Asian peers. In Reading we saw good performance with an 89% passing rate among all students. Our greatest opportunity for ELAR remains with our Hispanic, ECD and ELL students. The results of the Writing test were moderately strong with an overall passing rate of 82%. However, writing will remain an area of focus for us as we work to make sure all of our students are prepared to perform well at the high school level. Our greatest area of opportunity in writing is our ELL students where 17% of our students met the standard for Satisfactory Performance on STAAR.

Student Achievement Strengths

Overall, our student performance is strong. Comparatively, all four core subjects are areas of strength for us. In 8th grade Math 100% of our students met standard the Algebra I STAAR exam with 69% of the students performing at the Advanced level. Overall our Met Standard rates are as follows: All Subjects - 87%, Reading - 89%, Mathematics - 100% (Algebra I only), Writing - 82%, Science - 81% and Social Studies - 85%.

Student Achievement Needs

Though our academic performance among all students is strong, we do have areas of opportunity for us, mostly in the areas of academic performance for ELL students. Looking at overall performance across grade levels, we have some challenges with closing the achievement gaps between the subpopulations. Our ECD and ELL students perform at rates lower than their peers in several areas.
School Culture and Climate

School Culture and Climate Summary

Faubion Middle School has a proud history dating back to 1986. This year a new Principal was appointed and that has had a positive impact on the culture of the building. We're continuing to build on our positive culture through innovative ways to celebrate and recognize student and staff excellence and performance. Our Lion's Pride is a tradition at FMS that recognizes students who are academically successful and who exhibit exemplary character. Lion's Pride is our gold standard. The FMS Merit Scholar program recognizes academic excellence for students who receive a grade of 93 and above in all classes each quarter. This year, Faubion will participate in the KLAK Teacher of the Month program to recognize teachers who exemplify exemplary standards of being an educator. The program is a great teacher recognition program that lets staff nominate teachers each month for the KLAK Teacher of the Month prize each month that includes a plaque, $500 and an entry into the Teacher of the Year nomination where they receive $1000 and a plaque.

School Culture and Climate Strengths

Faubion MS has a positive culture that has the student at the center of everything we do. Our staff believes strongly in the potential of each child. We believe greatly in collaboration and collegial conversations that form the foundation of the work we do in PLCs. More importantly, our staff at Faubion understand the purpose of connecting with families and forming relationships that foster trust and commitment. This year as part of our ongoing effort in Community Outreach, we attended the Back to School/Meet the Teacher Night at three of our feeder elementary schools: Malvern ES, Caldwell ES and Burks ES. These are our feeder campuses where a vast majority of our economically disadvantaged students come from, so it was important to us that we reach out to those families to provide support in helping to register their student, update their information in eSchool, collect proof of residency information, etc.

School Culture and Climate Needs

Survey data from FMS staff from the 2014-15 school year revealed the need to analyze our current practices in student discipline, communication, inclusion of staff in the decision-making process. This year, we have implemented measure to ensure consistency in the discipline of students. Communication from the administrative team is frequent. Decision-making is more transparent and staff and students are encouraged to bring their concerns to the administration without fear of retaliation or retribution. We will continue to focus on listening to the voice of all stakeholders through surveys, dropboxes for ideas, etc.
Staff Quality, Recruitment, and Retention

Staff Quality, Recruitment, and Retention Summary

Faubion Middle School remains committed to hiring the best and brightest staff to teach our students. This year we added nearly 30 new staff members, making the induction process even more important as we sought to impress upon them the importance of innovation, collaboration and self-reflection to improve their craft. The Gallup Poll Survey and Interview Fit Questions remain our standard initial tools for screening and interviewing candidates. We also intentionally and carefully screened each applicant using the same set of questions developed for interviewing for each paraprofessionalposition. One of our goals this year is to recognize, highlight and celebrate the hard work of those teachers who are going above and beyond to produce extraordinary results. With that in mind, we have decided to participate in the KLAK Teacher of the Year program that recognizes a Teacher of the Month each month and awards them with a $500 check and a plaque. Each teacher of the month is then entered into a drawing to win the Teacher of the Year prize that includes a much larger cash prize and plaque.

Staff Quality, Recruitment, and Retention Strengths

We have some great teachers at Faubion that love this school. Our Team Leads, Department Chairs and Instructional Coaches are among the best educators in the profession. They have a passion for the craft and a love for kids. Our goal this year is to focus on the relational aspects of the teaching-learning experience. Our teacher are also very collegial with each other and the administration, forming bonds that will help us to retain our very best.

Staff Quality, Recruitment, and Retention Needs

Our staff needs are minimal as the District has staffed Faubion well. However, due to the continued growth and success of our Fine Arts and elective programs, our future needs will dictate the addition of more staff to ensure a quality learning experience for those students as we prepare our future engineers, scientists, musicians, actors, singers and performers for high school.
Curriculum, Instruction, and Assessment

Curriculum, Instruction, and Assessment Summary

Faubion Middle School has experienced great success with the implementation of the Engaged Learning Model (ELM) in the areas of 6th grade Science and Social Studies. This year, the ELM is being expanded to the 7th grade Science and Social Studies classrooms. Although this model is different than what most of our teachers are used to doing in the area of instruction, our teachers have demonstrated a genuine enthusiasm for the potential benefits of the model. Our current 7th graders have the benefit of having experience in the area of ELM because they were exposed to the model last year, so they have been very supportive of their teacher and their peers who were not here last year to help them get used to the ELM model. Our Instructional Coaches are key to the successful implementation of ELM and are able to provide support to teachers who need assistance. As for our other areas, ELAR, Math, LOTE, CTE and Fine Arts continue to employ the district's guaranteed and viable curriculum to teach our students.

Curriculum, Instruction, and Assessment Strengths

Faubion Middle School will continue to focus on a mastery learning model. Working in tandem with our campus leaders, curriculum coordinators and instructional coaches, our teachers will design engaging lessons, utilizing the District-adopted Schlectly's Lesson Design for Engagement Model and other empirically-based, effective instructional practices. Common planning time is and will continue to be a priority in our master schedule as this allows teachers time to collaborate and engage in collegial conversations as part of their PLCs. Teachers will develop summative assessments together, tying each questions to the appropriate Texas Essential Knowledge and Skills (TEKS), which will allow us to monitor students' progress over time by Student Expectation (SE).

Curriculum, Instruction, and Assessment Needs

The District's focus on improving instructional planning through a structured Professional Learning Community (PLC) will yield valuable fruit this year in terms of student performance. In previous years, campuses were left to determine what the PLC should look like. That fractured approach placed limitations on the District's work to build and house a guaranteed and viable curriculum. The teachers at Faubion look forward to the work we will do this year with Solution Tree to implement a structured PLC across the District.
Family and Community Involvement

Family and Community Involvement Summary

Faubion Middle School enjoys a diverse community. With that diversity comes a range of options for engaging and involving members of the community. This year, we wanted to assist our parents who had challenges completing the paperwork required to register their students for school. We developed a Community Outreach plan to visit three of our elementary schools to engage our families at the schools that had the highest percentages of economically-disadvantaged students that will eventually come to Faubion. We requested computer space, brought registration forms and other materials to assist our families. The night was a success as many of the parents who had kids at Malvern ES, Caldwell ES or Burks ES also had kids that were already at Faubion or would be starting at Faubion this year. We had a line of parents that showed to interact with us. Many of them thanked us and commended us for such an innovative approach to Community Outreach. We also plan to engage the community in other ways this year through the improved use of social media, email, weekly parent letters, etc. Our Meet the Teacher Night was very well attended. The 600+ seat auditorium was full with an estimated additional 100-200 parents and students that were unable to be seated in the auditorium. Many of the teachers who have worked here for many years said it was the best attendance Faubion has ever had in its history! We attribute this to our marketing blitz and the excitement around the changes that have occurred at the campus.

Family and Community Involvement Strengths

Our parents at Faubion have a strong desire to be involved in their student's academic lives. We plan to offer parents an opportunity to partner with our teachers as guest speakers, presenters, chaperones, etc. Our hope is that each parent will commit at least one day to helping on our campus this year. Our PTO is incredibly strong and organized as well. They have several programs they do throughout the year to encourage parent and community participation, which builds PRIDE in being a part of the Faubion Family.

Family and Community Involvement Needs

About 20% of our families don't have a valid email address on file. This presents us with challenges in communicating with them. We have decided to do a point-of-contact check of each parent that calls the school or comes up to the school to update their email address with us. We have also encouraged parents to LIKE our Facebook Page, FOLLOW US on Twitter and visit our website for opportunities to be a part of the activities and events at Faubion.
School Context and Organization

School Context and Organization Summary

Faubion Middle School has approximately 1,150 students this year. This is a growth of nearly 200 students verses last year. The growth is due to the middle school rezoning process that took place last spring. Faubion underwent significant construction over the past two years to prepare for the additional students. Our new facilities include a state of the art Media Center, a new reception and front office area, updated technology in our computer-based courses, a new band hall, an extension of the cafeteria and several additional classrooms. The organization itself is healthy. Analysis of High Reliability Schools (HRS) survey responses indicate that our staff believes Faubion to be a safe campus with high expectations for teaching and learning. The school has a new administration this year, so we will establish a baseline this year with our Organizational Health Inventory (OHI) to be conducted in the spring semester.

School Context and Organization Strengths

Faubion has maintained an overall attitude of excellence in all areas. Our students have come in 1st place at the annual UIL competition, which includes all of the middle schools from MISD and Allen ISD, for the past 3 consecutive years. Also, our Fine Arts program is thriving. The visual arts currently enjoy healthy enrollment in Art 1 and Art 2. As for the performing arts, this year we have over 240 kids in Choir, over 250 kids in Band, nearly 200 in Orchestra and nearly 100 kids in Drama. Our Athletics programs are also strong. We currently have over 360 kids in athletics with a healthy split between boys and girls. Our CTE programs are focusing this year on attracting and recruiting students who may be interested in STEM endorsements in high school or STEM-related post-secondary studies or careers. Our AVID program is also doing well. Our goal is to become a Demonstration School within the next three years, so we will continue to look for ways to promote AVID and the college-going mindset that comes along with the program.

School Context and Organization Needs

Our fine arts area could benefit from having more individual and/or small group practice areas. Our choir program has enjoyed an explosion in interest over the past few years. However, as of this year the program has grown to the point where having a second choir teacher is needed. Many of the teacher's classes have over 50 students with a single teacher in the room. Our Athletics program has the distinct pleasure of having Ron Poe stadium as a daily practice area. However, the distance between the stadium and the campus presents some unique challenges. Also, our afternoon PE/Athletics classes have challenges due to the proximity of the McKinney HS baseball facility. Baseballs have been known to randomly land in close proximity to our students who are at the stadium for Athletics, Cheer, Drill Team or PE. Our Nurse and Front Office staff have requested that we buy radios so we can contact coaches/sponsors who are at the stadium to send for students whose parents arrive to pick them up.
Technology

Technology Summary

All of the classrooms at Faubion Middle School are equipped with advanced technology including SmartBoards and a teacher computer station. In addition to that, each teacher is issued an iPad to use for work-related reasons. The implementation of the Engaged Learning Model (ELM) last year included an infusion of technology for science and social studies classrooms at the sixth grade level. Each of those content areas received additional iPads and MacBook computers to help integrate technology into their lessons. This year, the district has expanded ELM to the 7th grade science and social studies areas. So, those grade levels are being provided 75 MacBook Air computers and charging/storage carts per content area.

This year we hired a new Media Resource Specialist who is helping to lead the campus in a technology driven direction. Our goal over the next few years is to reduce paper consumption and costs by 50%. This can be accomplished by providing our teachers with the training to do formative and summative assessments digitally. Every student and teacher now has a Google Account that can be used to store documents, complete assessments, etc. We believe the investments we are making in creating a digital learning environment will prepare students for high school and post-secondary education and careers.

Technology Strengths

Our teachers have embraced the use of technology in the classroom. Many of them have taken to expanding their own knowledge base to learn new pedagogical methods that include technology. The District's infusion of investment in technology to support ELM has also proven to be good for our students as this is how they prefer to learn and demonstrate their mastery of learned concepts.

Technology Needs

Our campus seems to be behind the other secondary campuses in the area of technology. The other campuses have done a great job of investing in adding technology from their campus budgets. We will begin to take that approach as well, with eventual goal to have a set of laptops or iPads for every classroom over the next 5 years. We currently have over 100 laptops that are unusable because the computers have Windows XP as an operating system. Since Microsoft has discontinued its support for Windows XP, using these computers would put the District's network at significant risk for viruses. These computers need to be replaced as soon as possible so that our teachers can use them in the classroom.
Comprehensive Needs Assessment Data Documentation

The following data were used to verify the comprehensive needs assessment analysis:

**Improvement Planning Data**

- District goals
- Campus goals
- Current and/or prior year(s) campus and/or district improvement plans
- State and federal planning requirements

**Accountability Data**

- Texas Academic Performance Report (TAPR) data
- Performance Index Framework Data: Index 1 - Student Achievement
- Performance Index Framework Data: Index 2 - Student Progress
- Performance Index Framework Data: Index 3 - Closing Performance Gaps
- Performance Index Framework Data: Index 4 - Postsecondary Readiness
- PBMAS data
- Community and student engagement rating data

**Student Data: Assessments**

- State and federally required assessment information (e.g. curriculum, eligibility, format, standards, accommodations, TEA information)
- State of Texas Assessments of Academic Readiness (STAAR) current and longitudinal results, including all versions
- STAAR End-of-Course current and longitudinal results, including all versions
- STAAR Released Test Questions
- STAAR ELL Progress Measure data
- Texas English Language Proficiency Assessment System (TELPAS) results
- Texas Primary Reading Inventory (TPRI), Tejas LEE, or other alternate early reading assessment results
- Student Success Initiative (SSI) data for Grades 5 and 8
- Local diagnostic reading assessment data
- Local diagnostic math assessment data
- Local benchmark or common assessments data
- Student failure and/or retention rates

**Student Data: Student Groups**

- Race and ethnicity data, including number of students, academic achievement, discipline, attendance, and rates of progress between groups
- Number of students assigned to each special program, including analysis of academic achievement, race, ethnicity, gender, etc.
- Economically Disadvantaged / Non-economically disadvantaged performance and participation data
- Special education population, including performance, discipline, attendance, and mobility
- At-Risk population, including performance, discipline, attendance, and mobility
- ELL or LEP data, including academic achievement, support and accommodation needs, race, ethnicity, gender, etc.
- Homeless data
- Gifted and talented data
- Response to Intervention (RtI) student achievement data

**Student Data: Behavior and Other Indicators**
- Completion rates and/or graduation rates data
- Attendance data
- Violence and/or violence prevention records
- Student surveys and/or other feedback

**Employee Data**
- Professional Learning Communities (PLC) data
- Staff surveys and/or other feedback
- Campus leadership data
- Campus department and/or faculty meeting discussions and data
- Professional development needs assessment data

**Parent/Community Data**
- Parent surveys and/or other feedback
- Community surveys and/or other feedback

**Support Systems and Other Data**
- Budgets/entitlements and expenditures data
- Study of best practices
Goals

**Goal 1: Safe and Collaborative Culture: Faubion Middle School will ensure the faculty, staff, students, parents, and community believe that the school is safe and maximizes collaboration for the enhancement of student learning.**

**Performance Objective 1:** Teacher teams and collaborative groups regularly interact to address common issues regarding curriculum, assessment, instruction, and the achievement of all students.

**Evaluation Data Source(s) 1:** Every campus will establish a protocol that addresses the functions of Professional Learning Communities (PLCs) this year.

**Summative Evaluation 1:**

Campus #043907041
April 5, 2017 5:28 pm
**Goal 2:** Teaching and Learning by Design: McKinney ISD will engage students in rigorous and relevant learning experiences that will prepare them for graduation and post-secondary success.

**Performance Objective 3:** MISD will develop and continue to push for a rigorous curriculum that allows students to demonstrate mastery.

**Evaluation Data Source(s) 3:**
1. Local assessments will reflect the elements of Schlechty's Design Qualities
2. MISD will provide campuses with a variety of assessment tools to monitor student mastery

**Summative Evaluation 3:**

<td>Feedback on walkthrough forms. Increased number of students demonstrating mastery level performance on formative and summative assessments.</td>
<td></td>
</tr>
<tr>
<td>1) Faubion Middle School leadership team will schedule periodic walkthroughs with MISD Curriculum Coordinators to ensure curriculum is being implemented with fidelity and that formative and summative assessments show demonstrated mastery of all students. Feedback on walkthroughs will be shared with teams of teachers observed.</td>

</tr>
<tr>
<td>2) Formative and summative assessments at Faubion Middle School will include elements of Schlechty's Design Qualities. Over the next 3 years, we will ensure campus wide implementation of this strategy. In the 16-17 year, we will continue to focus on the content areas that are currently implementing the Engaged Learning Model (ELM) as this model lends itself perfectly to Schlechty's Design Qualities.</td>

= Accomplished  🍊 = Considerable  🍋 = Some Progress  ⚤ = No Progress  ✘ = Discontinue
Goal 2: Teaching and Learning by Design: McKinney ISD will engage students in rigorous and relevant learning experiences that will prepare them for graduation and post-secondary success.

Performance Objective 4: MISD will promote post secondary readiness for all students at all campuses.

Evaluation Data Source(s) 4: 1. Each campus will create, initiate, and monitor individual plans that promote post secondary readiness in classrooms

Summative Evaluation 4:

<table>
<thead>
<tr>
<th>Strategy Description</th>
<th>Title I</th>
<th>Staff Responsible for Monitoring</th>
<th>Evidence that Demonstrates Success</th>
<th>Reviews</th>

</thead>
</table>
| **Critical Success Factors**  
CSF 1 CSF 4 CSF 5 | 2, 6, 9, 10 | Administrators, Teachers, AVID Coordinator | Walkthroughs that specifically look for the use of AVID strategies. | Formative | Summative |
| CSF 1 | 3, 4, 10 | Administration | Annual Accountability Rating in Index 4. | Nov | Jan | Mar | June |

1) Faubion Middle School is currently a campus that has an AVID program. Our goal over the next three years is to become an AVID demonstration school. AVID is a nationwide program that promotes a college-going mentality and gets students connecting their actions today to post-secondary success. FMS will encourage all teachers to utilize elements of the AVID organizational strategies (e.g. planners, Cornell Notes, use of Learning Objectives, etc.)

2) Faubion Middle School will earn an Academic Award for Distinction Designation in Post-Secondary Readiness by remaining in the Top 25% of comparison schools according to the TEA Accountability Standards.

= Accomplished  = Considerable  = Some Progress  = No Progress  = Discontinue
Goal 3: Effective Processes: McKinney ISD will implement systems related to fiscal responsibility to promote the teaching and learning process.

Goal 4: Effective Processes: McKinney ISD will implement systems related to support services to promote the teaching and learning process.

Goal 5: Effective Processes: McKinney ISD will implement systems related to human capital to promote the teaching and learning process.

Goal 6: Effective Processes: McKinney ISD will implement systems related to communications to promote the teaching and learning process.
